MONTHLY ACTIVITIES REPORT

September - October 2025

Taking this opportunity of writing this message on behalf of the entire UKT team. This month has been one of the most awaited times for all of us. I am referring to the blessing day we concluded a few days back. I was fortunate enough to be part of this entire process which culminated over the last few months. It all started with Master Rohan and Shammy Shiri, Ashwini as trainers and team of Healer as support group covering vast distances across Karnataka, conducting multiple in-person two-day workshops (Self Healing). Post Self Healing concluded, many of the folks interested in moving ahead in this journey enrolled in the Inner Growth online program. Hundreds of people enrolled for this program and participated in daily morning sessions, but ultimately, only 360 individuals qualified to attend the blessing day, thanks to all those mentors who took the responsibility of coaching, guiding, nurturing, and many times nudging to help these people on the right path and come prepared for the blessing day. Kudos to the entire mentors' team who relentlessly worked on this round the clock despite their busy schedules.

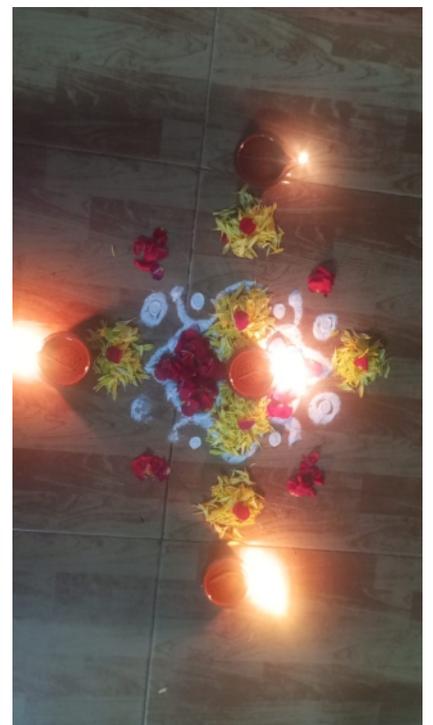

I am glad to share with you that the blessing day was nothing less than a festival, with women and children participating in this event as if it was their own event at home. Dressed in the finest of their clothes and jewelry, with big smiles and open hearts, all spiritually uplifted individuals came together to be a part of this beautiful event. A few of our friends were blessed with golden healing hands, and others were blessed with multiple downloads of their interest, and the individuals got their spiritual channels opened. Would like to extend and share my gratitude and thanks to all those folks who have directly or indirectly been associated with this Universal Knowledge Trust movement, helping people in all walks of life, uplifting them spiritually, and making their lives meaningful.

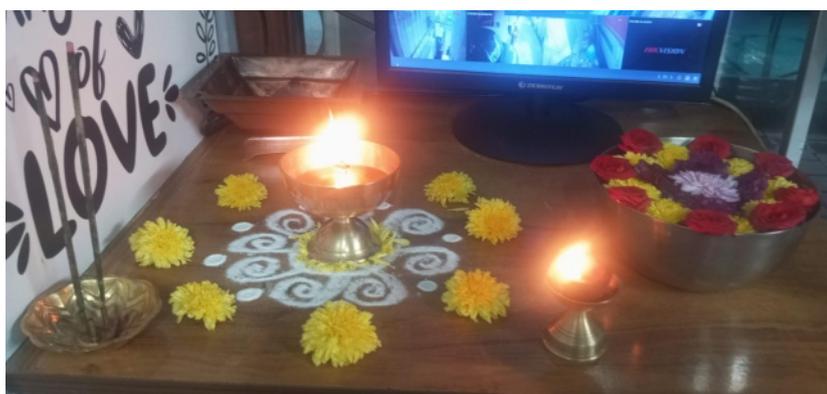

I encourage all those who are reading this foreword to be assured that this journey is not only going to help you but also all those people who you cross in your lifetime. Let's join hands together and take this initiative and movement to the next level. From the bottom of my heart, I would like to thank all the volunteers, the mentors, the healers, and Master Rohan and Shammy Shiri for their guidance and for making this a grand success. Thank you.

"The journey of a thousand miles begins with a single step, and each step taken with a pure heart brings us closer to our true selves.
