MONTHLY ACTIVITIES REPORT

June-August 2025

Athma Namaste to everyone,

I would like to express my heartfelt gratitude to **Master Rohan Shiri** for founding the beautiful organization “**Universal Knowledge Trust**” and for giving me the opportunity to serve as a Trustee.

Universal Knowledge Trust has been actively engaged in a variety of meaningful initiatives. Among the most impactful activities in the months of June and July 2025 were the “**Self-Healing Classes**”. These sessions were launched with great enthusiasm and have been conducted by Master Trainer and Healer **Shammy Shiri**, and **Ashwini Alatagi Naik**. Held across various cities in Karnataka, these classes aim to empower individuals to discover their inner healing potential—without relying on medicines or chemicals. The feedback has been overwhelmingly positive, with participants deeply appreciating the techniques shared to lead a healthier and more balanced life.

Adding another feather to UKT's cap was the release of the book “**It's a Squared World**” on 5th July 2025. What made this event truly special was that the book was launched by the children of UKT family members. Authored by 11 talented writers from UKT, this book stands as a testament to the creative spirit within our community.

“**Tree plantation**” has long been a cherished tradition at UKT. Continuing this legacy, the UKT family planted 1,000 saplings near Bannerghatta Road, Bangalore during June and July—furthering our commitment to environmental stewardship.

The journey with UKT has been truly inspiring, with new activities unfolding every month. I look forward to many more milestones as we continue to grow together.

Thanks, and Best Regards,

Raja Radhakrishna
Trustee – Universal Knowledge Trust
